SECTION 5 - DECLARATION

The declaration below **must** be signed by the applicant named on page 1 **and**, where appropriate, by the applicant's authorised agent.

I declare that:

- I have read and understood the guidance given in the Guidelines; and
- The answers given in this form, are to the best of my knowledge and belief, accurate and correct and I accept responsibility for them.

'I/we agree to any disclosure or exchange or information about this application (including the content of any declaration or undertaking) to or with any public authority, statutory body or other organisation which SGRPID considers appropriate for the administration, evaluation and monitoring of the scheme concerened'

'I/we understand that details contained in this form may be placed on a public register'

Signature of applicant	Date	
	22/1/24.	
Farm business Ref. Number/Name		
Signature of agent (if applicable)	Date	

WARNING

If you knowingly or recklessly withhold material information or make a false or misleading statement you may be prosecuted.

Please now send this form to your local SGRPID area office. You are advised to keep a copy of this form.

IMPORTANT - Please make sure you have:

- · Answered all the questions; and
- Attached the location map requested at question 1; and
- Attached any separate sheet/s requested at section 4.

Incomplete forms cannot be processed and may be returned.

Description of Work

We are not technically bringing land into use. It is in use for grazing but it cannot be silaged, safely and efficiently. We aim to simply level small areas of land which are not suitable for machines to travel on and level them out to give us a surface that we can cut silage on.

There are no drains to insert and all boundaries are going to be left untouched.

By doing such works we would help our aim of reducing the carbon footprint on the farm which we have been set to reduce it by 30% by 2030.

It will also reduce the Health and Safety risk on travelling on these fields.

Timing of works

There would be around 4 to 6 weeks of work required. We would be working from west to east from the map.

We would strip the soil back in small sections and level the rock below and replace the soil back on top before we moved to the next section.

We would aim to start ASAP as we would want to carry the work out and plant the field in spring barley this March/April.
